Attachment 19

Inspector General's Recommendation Number 19, Page 65

Recommended DCI Action: Approve as modified.

Inspector General's Statement

Recommended that: 25X1A6a

The C/WHC assign to [REDACTED] and similarly isolated areas only experienced and trained employees who already know [REDACTED] are already familiar with [REDACTED] and have the minimum possible number of dependents.

DD/P Comment

Concur with modification. To the extent that it is possible the Division always attempts to send experienced and trained employees with language facility to stations where the language is highly essential. This has not been possible in all cases due to the rapid expansion of the Division's overseas operations. Increasing emphasis, however, is being placed on language training, both in Headquarters and in the field. As to sending families with a minimum number of dependents to posts such as [REDACTED] we agree that this is desirable, other factors being equal. While [REDACTED] is listed as a hardship post, housing in most all cases is adequate and additional funds in the form of hardship allowances accrue to families serving in these posts.
